At Forgotten Harvest, we feel enormous pride and passion in being part of a team that continues to serve our community. During FY 2023, the impact of inflation further increased the number of metro Detroit residents experiencing food insecurity, and 30% more individuals turned to our partner agencies for help feeding themselves and their children.

These numbers are troubling, but we know the Forgotten Harvest team of dedicated donors, volunteers, staff, and agency partners are here to do everything we can to provide relief. We are committed to the mission of feeding our metro Detroit neighbors in need and preventing nutritious food waste. As more and more individuals, families, seniors, and Veterans seek food assistance, we hold fast to constant evaluation of our processes to ensure we’re better positioned to provide a nutritionally balanced mix of food and dignity in our service.

We know the value of collaboration and partnership cannot be overstated in our intent to create the most meaningful impact in our community. Every day, we get to experience firsthand the amazing work we’re all here to do, from the Forgotten Harvest warehouse to dozens of our pantry partners and each stop in between.

We are so grateful for the donors, volunteers, staff, and community partners that are dedicated to making a positive difference in the lives of our neighbors living with any level of food insecurity. As the need grows, so too will our support.

Sincerely,

Adrian Lewis
CEO Forgotten Harvest

WHY WE DO IT:

It’s simple: 1 in 6 people in metro Detroit face hunger or food insecurity at some point in their lives. Food insecurity is defined as the inability to obtain sufficient food for their households. The need is up, and anyone can find themselves in need of assistance when faced with unexpected expenses. The problem is not the lack of food but the ability to get that healthy surplus food to those in need before it ends up in a landfill. Our vision is one where communities work together to end hunger, creating individual, neighborhood, economic, and environmental health. Our goal of providing the Right Food to the Right Place in the Right Quantity at the Right Time will set us up to make the biggest impact on the community we serve by creating an enhanced, more sustainable food-security network with nutritional food equity.
Forgotten Harvest plays an important role in the resource support Sharon, an Army Veteran, and other Veterans receive. Sharon said, “With the rising food costs, and I have two growing babies here, it helps. It very, very much helps because there are days where we get low on the fresh fruits and vegetables, and that’s one thing you gave us...I was very thankful for that because you have to feed your kids healthy food.”
HOW WE DO IT:
FORGOTTEN HARVEST IMPLEMENTS A WIDE VARIETY OF PROGRAMS THAT ENABLE US TO BETTER SERVE THE 650,000 METRO DETROITERS THAT RELY ON OUR ORGANIZATION EACH YEAR. THE CORE SUPPORT PROGRAMS OF OUR OPERATION ARE DETAILED BELOW.

**MOBILE PANTRY PROGRAM** Enables us to feed hundreds of families per distribution in under-served areas and last year delivered 21.46m lbs. of food in farmers’ market type settings. Over 330,180 recipients were assured a healthy assortment of meats, dairy, grains, produce, and fresh fruits that would otherwise be unaffordable and unavailable to families without the help of the Forgotten Harvest Mobile Pantry Program.

**FORGOTTEN HARVEST ON-THE-GO MOBILE PANTRY PROGRAM** Distributes food to high-poverty, under-served neighborhoods without a permanent emergency food distribution location. New Forgotten Harvest On-the-Go sites are chosen based on the food-insecurity index developed in coordination with Landgrid and Data Driven Detroit. These sites are used to help us grow our pantry network.

**SCHOOL PANTRY PROGRAM** Enables Forgotten Harvest to target distribution to vulnerable families with children where they are already gathering — at agencies with early childhood education programs and schools. As a result, nutritious food can nourish children in the evenings, on weekends, and during school vacations when they lose access to school-funded food programs.

**HEALTHY FOOD / HEALTHY SENIORS** Addresses the critical need to increase access to nutritious fresh food for low-income metro Detroit seniors. More than 19,000 of these seniors live in the City of Detroit, where 21% of seniors live in poverty. Forgotten Harvest works with a diverse network of pantries, many that are solely focused on supporting the lives of seniors, providing them much needed nutritious food that increases their health and wellness.

**SUMMER LUNCH PROGRAM** Ensures that children under 18 in lower-income areas continue to receive nutritious meals during summer vacations when they do not have access to the National School Lunch or School Breakfast Programs.
HARVEST HEROES
Our trucks traverse the metro Detroit community six days a week, rescuing food from various sources, but some pick-up requests are too small to send a box truck – that’s where Harvest Heroes comes to the rescue. A team of 42 volunteers use their personal vehicles to hit the road weekly, making stops at independent grocers, caterers, restaurants, and other suppliers. The volunteers then deliver the food to nearby pantries.

VETERAN SUPPORT PROGRAM
Supports those who have served our country bravely and shouldn’t be forced to endure the agony of not knowing if they can feed their families. In 2022, Forgotten Harvest worked with five Veteran-specific agency partners, providing over 600,000 lbs. of food. Forgotten Harvest continues to establish additional Veteran partnerships to help change an unacceptable situation for the many men and women who have given so much of their lives for the safety of our nation.

USDA CHILD NUTRITION – SFSP/CACFP
SFSP, also known in Michigan as “Meet Up and Eat Up,” is operated at the local level during summer months by program sponsors and is administered by MI Department of Education (MDE). CACFP is a sponsor-operated and MDE-administered school-year program for children (<18) who participate in structured, after-school programs in lower-income areas. The programs provide healthy meals and snacks.

YOUTH SNACK PROGRAM
Provided 135,985 nutritious snacks last year to kids from kindergarten to high school attending afterschool and summer educational programs at enrichment programs throughout metro Detroit. The snacks encourage children and teens to attend programming to receive help with school work and participate in various educational programs.

FORGOTTEN HARVEST FARMS
Situated on 95 acres of donated land in Fenton with an annual yield of 502,153 lbs. of fresh, healthy produce. Forgotten Harvest Farms grows and harvests crops such as potatoes, sweet corn, green beans, cabbage, collard greens, zucchini, watermelon, carrots, chili peppers, and mustard greens. The farm allows Forgotten Harvest to ensure that metro Detroit families will consistently benefit from fresh, healthy foods that are often unavailable or unaffordable to them.
2022-2023 COMMUNITY IMPACT

SPECIAL THANKS TO OUR VOLUNTEER RESCUE TEAM

Last fiscal year, 25,491 volunteers helped us complete our mission. These corporate groups and individual volunteers provided over 83,998 hours of generous help. Without this critical support, completing our mission would not be possible. We have morning and afternoon opportunities at the West Eight Mile warehouse for up to 75 people. These volunteers help our team create family-size portions from bulk rescued food and glean and repackage the food that comes in through the Grocery Rescue Program.
TO TRULY REACH A PLACE OF EMPOWERING HEALTHY COMMUNITIES, WE MUST CONTINUOUSLY ACKNOWLEDGE THE WORK OF OUR AGENCY PARTNERS. THESE 220+ PARTNERS ARE IN DIRECT CONTACT WITH OUR NEIGHBORS IN NEED. WE WOULD NOT BE ABLE TO OFFER THE SCOPE OF SUPPORT THAT WE DO WITHOUT OUR ESSENTIAL COLLABORATORS. THE FOOD PANTRIES, FOOD BANKS, SHELTERS, AND OTHER COMMUNITY ORGANIZATIONS FORGOTTEN HARVEST WORKS WITH ARE THE MECHANISM OF OUR IMPACT.

SPECIAL THANKS TO ALL OF OUR AGENCY PARTNER ORGANIZATIONS
PARTNERSHIP HIGHLIGHT: LAKERIDGE VILLAGE

Lakeridge Village is a non-profit community center focused on transitional housing and holistic health treatment. Located in Detroit and led by Pastor Eddie C. Williams, this organization helps people dealing with houselessness, lack of utilities, substance abuse and dependencies, and mental health issues.

Lakeridge Village, in partnership with Forgotten Harvest, also operates a food pantry for their community, serving around 90 people per week. “What food does is bring people together, almost as a fellowship. When the Forgotten Harvest truck shows up, it’s a community fellowship,” Pastor Williams expressed.

Pastor Williams and his team stress the importance of holistic care, addressing the spectrum of needs people have from housing and food access to healthcare. “My staff and I get excited to see the Forgotten Harvest truck because we get a chance to see the neighbors again...to have a meaningful relationship not just to pass out food but to communicate some of the concerns of the community while they stand in line.”

The dedication to community care is evident in their work, and it is easy to see how collaboration is vital among community organizations like Lakeridge Village to expand our collective and individual impacts. As ever, it is Forgotten Harvest’s promise to contribute to the care of our neighbors in every way we can.
In June of 2022, Forgotten Harvest stepped into a unique position for a nonprofit in becoming a funding partner open to its 200+ partner agencies. A $5 million Agency Capacity Grant Fund was established to make direct investments into Forgotten Harvest’s agency distribution partners for building operational capacity and improving quality of service. In this three-year, six-round program, the strategic objective is to strengthen the metro Detroit emergency food distribution network by increasing total food distributions and client access, and fostering collaboration among community organizations for greater holistic care. The bi-annual allocation of these funds is determined annually during Forgotten Harvest’s budget process.

Three rounds of grantees have already been awarded. Their applications and project implementation have allowed the Grant Committee to develop a deeper understanding of agency needs, capacity demands, and the agency network’s ability to absorb funds.

The purpose of the Agency Capacity Grant Program is translated into the following priorities:

- Increase total food distribution and client access
- Deepen or extend relationships with and services for clients
- Improve operations or logistics to reach underserved populations
- Encourage agency partnerships and collaboration
AGENCY GRANT HIGHLIGHTS

The $5 million Agency Capacity Grant Fund is designed to bolster the work of Forgotten Harvest’s network of distribution partners. In round one of the Fund’s allocation, Forgotten Harvest provided grants to five agency partners to help solve an operational or logistical issue and expand their impact on the communities they serve.

BE Church of Belleville is one grantee, serving around 125 families each week at their food pantry. Major construction projects including a staircase rebuild, a paved parking lot, and a new storage building will ensure a safer and easier operation for their staff and volunteers and expand the amount of food they’re able to provide to the community. The BE Church team has already secured a handful of new freezers and refrigerators to increase energy efficiency and provide more storage. Ryan Borden, church member and operations partner, said “I know as we go through this and we have the food and the availability to get to people...we'll change and grow and adapt in ways we haven't thought of.”

God’s Storehouse, another grantee, hosts two weekly food pantries at their location to provide their neighbors with a client-choice, grocery store-style food selection and a place to get hot meals. Project G.R.O.W. (Greater Reach Outside the Walls), a food and essential goods delivery service, is another major part of their work. Many of the neighbors they serve are not able to access their on-site food pantry, so the God’s Storehouse team brings their care on the go. With the help of their Agency Capacity Grant, a new Ford Transit Crew van was purchased and outfitted with a service window, shelving, and a speaker and microphone system allowing them to communicate what they’re bringing out to the community. “This is saving lives, literally,” Pastor Toni-Brooke Brown told us.

With three rounds to go, the impact on our metro Detroit communities will continue to expand. More neighbors in need are already being reached through the work of this Program, and we at Forgotten Harvest feel so grateful to be able to further contribute to a metro Detroit where fewer people are going hungry.
Forgotten Harvest rescues fresh nutritious food from 560 partner food businesses. These grocery stores, farms, processors, manufacturers, warehouses, distributors, dairies, restaurants, caterers, entertainment venues, and sports arenas donated the 40.3 million pounds of food that went directly to feed our metro Detroit community last fiscal year. These partners donated this food to Forgotten Harvest so that we could distribute it free-of-charge to our neighbors in need.

THE NANCY M. FISHMAN SOCIETY RECOGNIZES DONORS WITH CUMULATIVE LIFETIME CONTRIBUTIONS OF $100,000 OR MORE.
TOMORROW’S HARVEST
TOMORROW’S HARVEST HONORS DONORS WHO SET OUT TO HELP FORGOTTEN HARVEST THROUGH THEIR WILL, ESTATE PLAN, CHARITABLE BEQUEST, OR OTHER PLANNED GIFTS. THESE PLANNED GIFTS PROVIDE LONG-TERM SUPPORT THAT STRENGTHENS OUR ABILITY TO MEET FUTURE CHALLENGES IN THE FIGHT AGAINST HUNGER.
